Re: Summer Program

Hello Bullard Knights and Parents,

The Knights coaching staff is working hard to develop a stronger relationship between our girls and boys water polo programs at Bullard High. We have attached a flyer to this memo regarding a summer program for high school athletes. We hope you will strongly consider participating in this program this coming summer.

The program is open to all high school aged athletes. Members of the Fresno Dolphins Senior and Elite groups are eligible for this program as part of their Dolphins membership. The program is a chance to learn and practice polo skills and scrimmage during the summer break at Bullard High. We will have two groups practicing each day, a novice group and an experienced group. We typically teach a “skill of the day”, then practice that skill in a drill. After that, we scrimmage in our two separate groups, so everyone gets plenty of playing time.

We know that many of you play club polo for various clubs in the Central Valley and practice in the evenings in different locations. This program is meant to be supplemental for you. Of course, we encourage you to participate in “Option 1” so you can work on swimming conditioning using our beautiful 50 meter pool and practice polo after that in the same location. Although we may have some scrimmages vs other programs during our practice time, we will not attend Junior Olympics or other expensive tournaments.

We are going to discount the program fees for both options for Bullard High School students. Option 1 will be reduced from \$195.00 to \$150.00 and Option 2 will be reduced from \$175.00 to \$130.00.

We hope you will strongly consider participating in this program in your home pool. We think this will help bring our girls and boys teams together and provide an opportunity for many Bullard High athletes to practice and play.
